

*Please be aware*  
**November is  
Global Warming  
Awareness Month**

Motivating fact: **RECYCLING** and composting stopped the disposal of 87.2 million tons of material in the U.S. in 2013, which had the effect of preventing the emission of around 186 million tons of carbon dioxide to the atmosphere (source: EPA). **RECYCLE MORE! SAVE THE PLANET!**

Sponsored by NGHS

**Conserve**

Throughout November!
